Spring is a fun time at the Farm when animals have their babies and flowers & trees are in bloom. The farm has 120 acres where one can take a wagon ride or drive thru in your vehicle to see & feed exotic as well as domestic animals. We also raise produce for our own use as well as for selling in our produce stand. The Farm houses are self-guided with cookie samples for everyone. This is only a few of the things that you can see and do. Memorial Day weekend would be a great time to see what we have to offer.

The Farm at Walnut Creek is just like any other farm down the road. You can see chickens in their laying nests, horses enjoying their lunch in the hay mow, cows grazing in the pasture, sheep and goats happily playing a game make your experience here both enjoyable and educational. You will be able to see a way of life in action as you view how farmers make a living off of the land that has likely been handed down to them for generations. Some farmers choose to have a big dairy herd while others have switched from milking cows to raising produce or alternative livestock. Some of the animals that are likely to be seen in this community like ostrich, emus, rheas, llamas, donkeys and white-tail deer as well as those that are not such as giraffe and zebras can be found roaming the hills of “The Farm at Walnut Creek.” These animals can be viewed from your own vehicle or an hour long horse drawn wagon ride.

The nonelectric houses are where the ladies spend many hours cooking, canning, baking, quilting and sewing. During regular hours of operation the houses will be smelling like fresh baked good, that you can sample and purchase. The gift barn has a variety of stuff animals and many other gifts for to choose from. “The Farm at Walnut Creek” also offers a playground with Noah’s Ark for the children and picnic areas with volleyball courts for the adults. So come and spend the day with us.
